

**Bear Valley Springs
Equine Vaccination Requirements
For Campgrounds**

Campground Processing for Equines upon Arrival:

Vaccinations: Owner must provide documentation showing proof of current vaccinations administered in the spring of each year. All horses must be vaccinated with a 4-way (Eastern and Western Encephalomyelitis, Tetanus, Flu) and West Niles vaccination. West Niles will require a booster in the fall of each year.

Documentation may be in one of the following forms:

- 1) Letterhead from veterinarian listing dates and types of vaccinations administered for each horse.
- 2) Personal letterhead stating dates and types of vaccinations administered for each horse. (A copy of receipt of purchased vaccines would be appreciated if administered by owner.)
